PROFESSIONAL SUMMARY

IT Support professional with 3+ years of IT and technical support experience, including 2+ years of hands-on Level I and Level II help desk support — resolving hardware, software, and network issues in high-volume, SLA-driven environments. Proficient in Windows OS, Active Directory, Microsoft 365 (Teams, Outlook, SharePoint), Azure AD, Microsoft Defender, and Intune for endpoint protection and mobile device management. Experienced with ITIL-aligned ticketing platforms (Jira, ServiceNow, Zendesk) including incident documentation, escalation, and knowledge base management. Holds a Post Graduate Certificate and NSDC Field Technician certification. Currently pursuing CompTIA A+ (Target: Q3 2026). Proven ability to train users, manage onboarding, and deliver exceptional customer service in institutional and professional environments across Canada.

TECHNICAL SKILLS

OS & Hardware: Windows 10/11/Server, macOS, Linux/Ubuntu, Desktop/laptop repair, imaging, BIOS/UEFI, printers

Microsoft 365: Teams, Outlook, SharePoint, OneDrive, Exchange, Active Directory, Azure AD, Intune

Remote Support: RDP, TeamViewer, AnyDesk, LogMeIn, Bomgar — phone, email & remote troubleshooting

Device & Asset Mgmt: MDM (Intune, Jamf basics), asset lifecycle tracking, hardware inventory, software deployment

QA & Testing: Manual & automated testing, JUnit, Espresso, defect tracking, quality reviews

Networking: TCP/IP, DNS, DHCP, LAN/WAN, VPN, Wi-Fi troubleshooting, switches, routers, Wireshark basics

Ticketing & ITSM: Jira, ServiceNow, Zendesk, Freshdesk — SLA tracking, escalation, KB documentation, ITIL basics

Security: Microsoft Defender, MFA/2FA, antivirus/malware removal, BitLocker, access provisioning & deprovisioning

Dev & Scripting: PowerShell basics, Android (Java/Kotlin), Git, REST APIs, SQL, batch scripting

Soft Skills: Root cause analysis, de-escalation, active listening, user training, multi-tasking under SLA pressure

PROFESSIONAL EXPERIENCE

IT Support Specialist

IT Path Solutions

April 2021 – March 2023

- **Provided Level I and Level II technical support** — resolved 20+ hardware, software, and application issues daily for 100+ end-users, maintaining 95%+ SLA compliance through structured root cause analysis and systematic troubleshooting.
- **Managed a Jira ticket queue of 30+ active tickets** — triaged by severity, achieved same-day resolution for all P1 incidents, and maintained thorough ITIL-aligned documentation for the team knowledge base.
- **Delivered remote technical support** via phone, email, RDP, and TeamViewer across a 100+ employee environment, maintaining a 90%+ user satisfaction rating through clear, patient guidance.
- **Administered Active Directory and Azure AD accounts** for 100+ users — password resets, access provisioning/deprovisioning, group policy updates, and profile management with zero security incidents.
- **Supported endpoint protection tools including Microsoft Defender** and antivirus/malware removal; managed Intune MDM policies and BitLocker encryption across 50+ devices.
- **Prepared and configured IT equipment for new employee onboarding** — imaging, software installation, account setup, and user orientation on systems and applications.

Android Application Development Intern

Silverwing Technologies

January 2018 – May 2019

- **Supported end-users and internal teams** by troubleshooting application issues, logging defects, and coordinating resolutions — contributing to 2 stable production releases delivered on schedule.
- **Eliminated 95% of pre-release defects** through rigorous manual and automated application testing (JUnit, Espresso), significantly improving quality and reducing support escalations post-release.
- **Documented application behaviour and created user-facing guides**, providing technical walkthroughs to stakeholders and supporting smooth adoption of software features across 2 production releases.

PROJECTS

Helpdesk Triage Automation & Knowledge Base

2022

IT Path Solutions — Internal Process Improvement

- **Built a structured triage workflow** reducing first-response time by streamlining ticket categorization and team assignment across the support team.
- **Created a shared knowledge base** of the top 20 hardware/software issues with step-by-step resolution guides, reducing escalations by an estimated 30%.
- **Standardized Jira incident templates** with 3 team members, improving SLA compliance tracking and documentation accuracy across the department.

IT Asset Inventory & Lifecycle Tracking System

2021 – 2022

IT Path Solutions — Hardware Management Initiative

- **Designed a centralized asset tracker** in Excel/SharePoint monitoring 100+ devices, flagging items due for maintenance or decommission — reducing procurement delays.
- **Reduced equipment loss** by establishing a standardized check-in/check-out log and labelling system adopted across the IT team.
- **Generated monthly lifecycle reports** for management, improving visibility into asset health and hardware refresh planning.

VOLUNTEER EXPERIENCE

Orientation Volunteer — Student Support & Administration

May 2024

Waterloo, ON

- Coordinated onboarding for **200+ students** in a high-volume environment, managing real-time process gaps and ensuring structured schedule execution.
- **Triaged student needs** and directed to appropriate staff — applying active listening and service-routing skills directly transferable to IT help desk work.
- Maintained **organized records and documentation** with discretion, supporting accurate institutional data reporting.

ADDITIONAL CANADIAN EXPERIENCE

Customer Service & Kitchen Operations Team Member

April 2025 – Present

Mediterraneo Greek Family Restaurant · Waterloo, ON

- **Deliver high-volume customer service** in a fast-paced, shift-based environment — managing 50+ customer interactions per shift with professionalism and composure under pressure, directly comparable to high-volume IT help desk work.
- **Coordinate simultaneously across multiple priorities** — order accuracy, timing, and team communication — demonstrating the same multi-tasking and deadline management skills required in SLA-driven IT support environments.
